Industry Brief

Energy and Utilities

Streamlining Mission Critical Work to Accelerate Operational Excellence

In a world of expanding opportunities, regulatory pressures, and growing exploration costs, Energy and Utility companies rely on innovative technology solutions to help transform their business and reduce costs. With Tasker, energy leaders leverage the industry's most secure collaborative work management solution to eliminate the silos of legacy tools and manual solutions. Leveraging the flexibility of Tasker shifts organizations from the rigid constraints of workflow into the nimble and dynamic flexibility of TaskFlow[™]. The result: Organizations unlock new found efficiencies in the office and out in the field, accelerating growth and profits.

COMMON APPLICATIONS

OPERATIONS

- Production optimization
- Declining well
- · Well and reservoir surveillance
- Maintenance procedures
- Health, Safety & Environmental (HSE)

REPORTING

- · Production anomalies
- Morning report
- · Coordinating well reviews
- · Field service ticket approval and processing

COMMERCIAL

- Authorization for Expenditure (AFE) process (internal/external)
- · Bid process
- Cost estimation

ENGINEERING, PLANNING & DESIGN

- Human resource planning
- Project management
- Technical application summaries
- Data processes management
- · Earth model and other development

Built for Today's Technology-Forward Gas, Oil, Solar, Wind Energy and Utilities Leaders

WorkUI™

Manage your work easily all in one place with the Tasker WorkUI[™]. Designed with collaborative work management best practices in mind so your critical, ad-hoc, and routine work is completed regardless of location or device. Quickly find all your assigned and delegated tasks, projects, and work. Access each assignment, all attachments, approve, complete, or delegate with ease.

Reports & Dashboards

Robust and dynamic standard and custom dashboards capture the state of work being performed throughout the organization. Executives can review organizational performance while business unit and team leaders can see who is getting work done and where bottlenecks are impacting productivity. All dashboard data can be easily exported in one-click to .csv and .xlsx formats for further analysis or review.

Intuitive TaskFlow[™] Builder

Easily build complex tasks and projects using Tasker's unique TaskFlow Builder. Build and review templates in "task-tree views." Quickly make task and subtasks, adjust assignments, or make ad-hoc changes on the fly to adjust for unexpected challenges or staff turnover. The flexibility and proactive features of Tasker ensure work is completed and nothing is lost when changes impact the market, business, or workforce.
